Pool decoration La décoration de la piscine

Our house has given itself a
facelift and into the new
different outdoor positions

In the garden, in the patio
area, at most outdoor areas
you will find that you're
decorating the pool area in a
style of exterior lighting,
decorations and furniture.

Now is when OSMI suggests
different approaches, either
decorations where pool, pool
furniture, everything.

Carrie Lorraine Miller
OSMI Manager

By now the various brands of
pool accessories are available
in stores. Furniture, decorations,
lighting, etc.

In the garden, are all parts of an
outdoor area that exterior, lighting
decorating, the following that exterior
Decorating is always important to
and the exterior still looks with a
surrounding environment differences.

Take on the main idea that the OSMI
approaches different, your choice
to furniture and accessories can become
the most attractive exterior.

diseño,

mosaico es un material que combina con todo tipo de materiales y diseños. Es un material versátil que se adapta a cualquier tipo de diseño y que se puede aplicar en diferentes superficies. El mosaico es una opción práctica y económica para decorar interiores y exteriores. Los mosaicos están compuestos por pequeñas piezas de cerámica o piedra que se unen entre sí mediante un mortero especial. Los mosaicos son resistentes al agua y a la intemperie, lo que los hace ideales para su uso en exteriores. Los mosaicos también son fáciles de limpiar y de mantener, ya que no se desgarran ni se rompen con facilidad. Los mosaicos son una excelente opción para decorar espacios públicos, como plazas y jardines, o para crear diseños únicos en espacios privados, como baños y cocinas. Los mosaicos son un material duradero y resistente que aporta un toque de originalidad y belleza a cualquier espacio.

Mosaic is an ecologic material that combines with all kinds of materials.

El mosaico es un material que combina con todo tipo de materiales.

La mosaïque est un matériau qui combine avec toute sorte de matériaux.

Throughout history, water has been associated with well-being. The Greeks, the Romans and the Indians all made it part of their culture, and simple hot springs remain to this day a cornerstone of health and well-being. This tradition, which makes up the essence of mosaic, is reflected in our new collection, our great desire to honor and preserve the legacy of ancient medical knowledge.

Our mosaic collection has been built around three key concepts: the importance of pleasure, allowing for direct pleasure, relaxation and pleasure of well-being. A luminous setting in a spa for well-being.

Al principio de la historia el agua ha sido siempre un símbolo de salud y bienestar, una forma de curación. Los griegos, los romanos y los indios lo hicieron parte de su cultura, y las fuentes termales simples siguen siendo hoy en día un pilar fundamental de la salud y el bienestar. Esta tradición, que hace parte de la esencia del mosaico, se refleja en nuestra nueva colección, nuestro gran deseo de honrar y preservar la legendaria sabiduría médica antigua.

La colección mosaico se basa en tres conceptos principales: el placer, el bienestar y la curación. Un ambiente luminoso en un spa para el bienestar.

of sea blue

This colour blue is used to represent water. It consists of purples, cyans and reds of depth and has an air of mystery. The mixture of colours will create something like the ocean.

It is one of the most popular shades of Agua. It is recommended for pools in the ground because it is easier to be maintained. The following is a representation of Acqua.

Move fast, decide, pivot, and repeat your process

Dream about something
impossible... and it will come true!
Mosaics that redefine the borders
of design. Endless tiles that appear
and fit where never expected or
imagined.

Pensez à l'impossible et il se réalisera.
Les mosaïques qui réinventent les
frontières du design.
Tessons éternels qui apparaissent et se
placent où jamais personne n'aurait
pu ou n'aurait imaginé.

Pensez à quelque chose d'impossible.
